

Linli Shi

Postdoctoral Researcher in Mathematics

ETH Zürich | UniDistance Suisse | Zürich, Switzerland

linli.shi@math.ethz.ch • linli-shi.github.io

ACADEMIC APPOINTMENTS

ETH Zürich and UniDistance Suisse

Postdoctoral Researcher

- Based at ETH Zürich. Mentors: David Loeffler and Sarah Zerbes.

Zürich, Switzerland

Sep 2025–present

EDUCATION

University of Connecticut

Ph.D. in Mathematics

- Advisor: Liang Xiao.

Storrs, CT, USA

Aug 2018–May 2025

Capital Normal University

M.S. in Mathematics

Beijing, China

Sep 2015–Jun 2018

University of Electronic Science and Technology of China

B.S. in Electronic and Information Science and Technology

Chengdu, China

Sep 2010–Jun 2014

RESEARCH INTERESTS

Number theory, automorphic forms, and arithmetic geometry, with emphasis on Beilinson’s conjectures, Euler systems, the Kudla program, and the relative Langlands program.

PAPERS AND PREPRINTS

- [1] **On higher regulators of Picard modular surfaces.** [arXiv:2510.08708](#). Submitted.

INVITED SEMINAR AND CONFERENCE TALKS

- Regularized periods of some Eisenstein series.* Purdue University, Automorphic Forms and Representation Theory Seminar, West Lafayette, IN. Jan 16, 2025
- On higher regulators of Picard modular surfaces.* Joint Mathematics Meetings, Special Session on “L-functions, Automorphic Forms, and Their Applications”, Seattle, WA. Jan 8–11, 2025
- On higher regulators of Picard modular surfaces.* University of Florida, Algebra Seminar, Gainesville, FL. Dec 3, 2024
- On higher regulators of Picard modular surfaces.* UC San Diego, Number Theory Seminar, San Diego, CA. Nov 20, 2024
- On higher regulators of Picard modular surfaces.* Boston University, Number Theory Seminar, Boston, MA. Nov 18, 2024
- On higher regulators of Picard modular surfaces.* Louisiana State University, Algebra and Number Theory Seminar, Online. Nov 5, 2024
- On higher regulators of Picard modular surfaces.* University of Arizona, Algebra and Number Theory Seminar, Tucson, AZ. Oct 15, 2024

HONORS AND AWARDS

Summer Doctoral Dissertation Fellowship, University of Connecticut

2023

Predoctoral Fellowship, University of Connecticut

2023

TEACHING EXPERIENCE

UniDistance Suisse <i>Teaching Assistant, Linear Algebra I</i>	Online 2025–2026
University of Connecticut <i>Teaching Assistant</i>	Storrs, CT, USA 2019–2025
• Courses: Mathematics for Business and Economics; Multivariable Calculus; Calculus II.	
Chinese Academy of Sciences <i>Teaching Assistant, Summer School of Algebra and Number Theory</i>	Beijing, China Summer 2023
• Teaching assistant for courses in algebraic geometry, algebraic number theory, and representation theory.	

MENTORING

- Semester thesis of Felix Stäheli, ETH Zürich, Spring 2026.
- Master's thesis of Leon Dahlmeier, ETH Zürich; co-supervised with Prof. Sarah Zerbes, Spring 2026.
- Master's thesis of An Khanh Dao, ETH Zürich; co-supervised with Prof. Sarah Zerbes, Fall 2025.

VISITING POSITIONS

Morningside Center of Mathematics, Chinese Academy of Sciences <i>Visiting Graduate Student</i>	Beijing, China May 2023–Jul 2024
Beijing International Center for Mathematical Research, Peking University <i>Visiting Graduate Student</i>	Beijing, China Sep 2020–Jul 2021

CONFERENCES AND WORKSHOPS (selected)

- Conference on Euler Systems, Nisyros, Greece. Jul 13–18, 2026
- Classical and p-adic aspects of the Kudla program, CIRM, Marseille, France. Jun 8–12, 2026
- Motives, L-values and Eisenstein series, Regensburg, Germany. Sep 22–26, 2025
- Arithmetic Algebraic Geometry, in honor of Shouwu Zhang's 60th birthday, Chinese University of Hong Kong, Hong Kong. Jun 5–8, 2023
- Conference on “Motives and Automorphic Forms” in Honour of Günter Harder's 85th Birthday, Max Planck Institute for Mathematics, Bonn, Germany. Mar 6–10, 2023
- Padova School on Serre Conjectures and the p-adic Langlands Program, University of Padova, Padova, Italy. May 27–Jun 14, 2019
- On the Langlands Program: Endoscopy and Beyond, Institute for Mathematical Sciences, National University of Singapore. Dec 17, 2018–Jan 18, 2019
